

CONNECT+FUNDA

CORPORATE PROFILE

WHO WE ARE

Connect+Funda is a high conviction technology and innovation company focused on providing a world-class student and learner experience digital platform underpinned by connectivity.

Our predecessor company was founded in 2014 as MS Innovations by a team of highly experienced tech, ICT, and former investment banking entrepreneurs based in Johannesburg, South Africa.

We are a black-owned and managed company with a BBBEE level 1 rating, committed to making a positive impact in the South African education sector through innovative technology solutions.

OUR MISSION

Our mission is to expand and accelerate access to the digital world and relevant digital products by schools in the developing world.

OUR VISION

Our vision is to build a leading technology company in Africa that provides innovative and affordable digital services, connectivity, and infrastructure to institutions within the education sector.

OUR APPROACH

WHO WE WORK WITH

We work with very driven principals and School Governing Bodies that are eagerly waiting for the perfect infrastructure to help their school's learners and teachers jump onto and/or stay on the Digital Train.

WHAT WE FOCUS ON

We believe that amongst some of the critical things that school leaders care about are:

- Improving learning and the pass rate
- Motivating teachers and learners to fulfill their daily tasks
- Reducing absenteeism and getting learners to remain at school
- Saving money and/or ensuring adequacy of budget

HOW WE DELIVER

When we deliver our digital infrastructure and mobile data products to schools, learners, and teachers, they will experience at least a 75% improvement in their ability to access the internet and other digital products but at significant cost savings.

WHY WE DO IT

We believe that access to and the ability to use digital technologies is super critical for every learner and teacher and cannot see why the infrastructure to achieve this goal should not be available at every South African school at very affordable pricing.

OUR SERVICES

DIGITAL INFRASTRUCTURE

We design, install, and maintain comprehensive digital infrastructure solutions for educational institutions, including:

- Internet connectivity setup
- WiFi network installation
- Network security implementation
- Server and storage solutions
- Power backup infrastructure

CONNECTIVITY SOLUTIONS

We provide affordable and reliable connectivity solutions tailored for educational needs:

- Mobile data plans for students and educators
- Broadband connectivity for institutions
- Specialized educational data packages
- Zero-rated educational content access
- Connectivity management systems

COMPUTER LAB SETUP

We establish modern computer labs that enhance the learning experience:

- Computer hardware procurement and installation
- Educational software setup
- Lab network configuration
- Maintenance and support services
- Teacher training and orientation

EDUCATIONAL TECHNOLOGY

We implement educational technology solutions that enhance teaching and learning:

- Digital learning platforms
- Educational content access
- Interactive learning tools
- Student progress tracking systems
- Remote learning capabilities

POWER BACKUP SOLUTIONS

We ensure uninterrupted learning with reliable power backup systems:

- UPS installation
- Generator systems
- Solar power solutions
- Power management systems
- Energy-efficient infrastructure

TRAINING & SUPPORT

We provide comprehensive training and ongoing support:

- Teacher technology training
 - IT staff capacity building
 - Student digital literacy programs
 - Technical support services
 - Maintenance and troubleshooting
-
